Advanced New Features

- Access SHIELD folders from a network PC or Mac and enjoy drag-and-drop file sharing.
Enable in Settings > Storage & reset > Access SHIELD folders on PC.
- Mount a network attached storage device (NAS) to SHIELD to access your complete media collection. Stream this media to mobile devices using the Plex app and SHIELD's HD hardware transcode. Set up in Settings > Storage & reset > Network storage.
- Automatically turn off your TV when SHIELD sleeps.
Enable in Settings > HDMI > HDMI-CEC preferences.
- Enable YCbCr 4:4:4 color space for improved video quality on supported TVs.
Go to Settings > HDMI > Color space.

Other Enhancements

- Improves picture quality for RGB TVs
- Delivers the latest monthly Android security updates
- Improves video playback for 23.976 Hz refresh rate
- Improves TV compatibility

Optimizations for New Apps and Games
